4. If yes, was it adequately addressed?	
5. How many samples were collected?	
Additional Comments : WASR arrived at the site 1310 hours and met with BP waste disposal contractors from Heritage Environmental Adam Fruge. Heritage indicated that there aren't any site activities due to operations being transferred to Port Fourchon. WASR was informed by Adam Fruge of the cap sized barge that was docked near the decon pad. Heritage indicated there were 4 frac tanks containing gray water and 1 rolloff box located on the cap sized barge, roll off box was recovered. There are a total of (3) frac tanks located onsite, (2) empty and (1) one-thirds filled. There are a total of two rolloff boxes located onsite and both are awaiting analytical results. WASR observed (1) rolloff box being half covered during site walk; Heritage rep was informed of the issue. WASR departed the site at 1340 hours.
